

About 20 percent of Americans will experience some form of mental disorder in their lifetime. Fear (or anxiety) and depression, although two separate conditions, often occur together. A clear A-to-Z guide to the myths and facts, *The Truth About Fear and Depression* carefully explains the causes, treatments, and other issues surrounding these increasingly common conditions. In straightforward prose and a factual tone, this reference offers a complete understanding of the topic while providing effective strategies for coping. Self-tests, Fact or Fiction? sidebars, and up-to-date statistics and charts engage readers and encourage interaction both at home and in the classroom. Topics include causes of anxiety disorders and depression, depression and families, the media and fear and depression, social costs of anxiety and depression, and treatment and rehabilitation.

*The Antitrust Paradox: A Policy at War With Itself, Enduring The Seasons of Marriage, Habitats of the World, Secret Memoirs of the Court of Berlin, The Expedition to Borneo of H.M.S.
